

Vertical Lifts are compact, low-weight machines well suited for increasing productivity on the job. Efficient operation and convenient setup make this model ideal for warehousing, stock-picking, transporting, inventory management and general maintenance.

- Drivable at full height
- Compact and low-weight; fits in most passenger elevators
- Can be driven through doorways with operator on board
- On-board diagnostics for convenient service
- Auxiliary platform lowering - enables descent in the event of a power failure
- Hinged rear covers for easy access to major service components
