

The Genie® AWP30 Vertical Lift is an industry favorite due to its straightforward design, convenience and flexibility. Its lightweight maneuverability and durability make it a versatile option for a wide variety of rental, light-duty construction and maintenance applications.

- User-friendly ground and platform controls with auxiliary platform lowering
- Quick set-up and simple to operate
- Durable patented Genie® mast system
- Easy to maneuver around and over obstacles with the Rocker Base System
- Small outrigger footprint for positioning close to walls
- Easy loading and transport in pickup trucks
- Super-Straddle option to work over fixed seating
